

PETER O METER

VIRTUAL ANIMATED

AUTHOR READ ALOUD

About the Book

PETER O'METER is a Programmable Empathetic Touch-sensitive Emotional Robot with a newly upgraded eMotion panel. Readers help PETER by giving advice about which button to press on his eMotion device as he navigate his robot-filled world. This book is unlike any other around with pages that comes to life with augmented reality using the free Quiver app.

About the Author

Tricia Fuglestad, art educator and artist, wrote, illustrated, and animated PETER O'METER to seamlessly integrate STEAM+ SEL + augmented reality to make this interactive story useful for adults while absolutely captivating children.

Virtual Read Aloud

Invite Tricia Fuglestad to read her exclusive animated version of her interactive story virtually to your elementary students. This takes about 20 minutes with audience participation. Try extending your visit 10 mins with Q&A and story insights.
